DATA ENGINEER

I am passionate to launch my career in **DataScientist**. Your entry level **Analyst** opening provides an excellent fit to my qualifications and desire, and I hope to have the chance to interview to this position.

In addition to my academic achievement. I am also participated in various competitions of competitive programming, recognized by professors, colleagues, and peers as a personable included **Data Analytics Technique (EDA), Visualization Tools, All Machine Learning Algorithm (Regression and Classification Techniques) And Deep Learning Techniques (Classification and Recognition)**.

I have experience in **Azure Data Engineer** and also worked on **Data Visualization for creating report according to client's requirements** through a 3+ Year from **Webhelp** and **Extension Technology**.

I thrived in this fast-paced, client-centered setting. My trainer always called me an **"If we have data, let's look at data. If all we have are opinions, let's go with mine"** because of my willingness and participation on projects assigned by them.

I perceive that this is unique opportunity to join the Data Analyst team of that has generated the beneficial report for develop and growth of company and I would like to contribute my work to be part of your continued success. Please **Call me at +919873788393** or **email sumit.datascientist@gmail.com** to arrange interview.

I look forward to hear from you.
